

2011 CUI Brownie Awards recognize excellence in Brownfield Redevelopment across Canada

October 5, 2011 – Toronto, ON

The 11th annual CUI Brownie Awards were presented at a Gala Dinner at the Allstream Centre at Exhibition Place in Toronto yesterday evening. Held in conjunction with the CUI's Canadian Brownfields conference – *Making Great Places* – the awards are sponsored by Canada Mortgage and Housing Corporation (CMHC), and celebrate excellence in brownfield redevelopment by transforming contaminated sites into “great places.”

Winners in seven categories from across Canada were recognized for their leadership, innovation and commitment to building sustainable communities.

“Regardless of their size or scale, successful brownfield projects are a truly collaborative effort, requiring commitment, persistence and an ability to overcome complex challenges,” said Glenn Miller, Vice President, Education and Research with the CUI. “The extraordinary range of projects and programs represented by the finalists are a tribute to the high quality of design and technical expertise across the country. Selecting the winners gets harder every year.”

The CUI Brownie Award for **best overall project** went to **The Tannery District in Kitchener, Ontario**, which turned a vacant derelict property into a state of the art, environmentally friendly building envelope that has attracted new commercial tenants, and which has also stimulated investment and renovation in surrounding sites.

Awards were also presented to the **East Village Re-Development in Calgary, Alberta** for **Best Large Scale Project**; and to the **Davie Village Community Garden in Vancouver, BC** for **Best Small Scale Project**. The award for **Brownfielder of the Year** went to **Dave Harper from Kilmer Brownfield Equity Fund L.P** for his leadership and advocacy to advance brownfield redevelopment across Canada.

Category-specific awards were awarded to the following projects:

- **Category 1 – Legislation, Policy and Program Development**
Streamlined Risk Assessment Approved Model – Toronto, ON
- **Category 2 – Sustainable Remediation Technologies and Technological Innovation**
Westminster Pier Park – New Westminster, BC
- **Category 3 – Financing, Risk Management and Partnerships**
Durham Region Courthouse – Oshawa, ON
