

Dear Fellow Brownfielders:

## **Canadian Brownfields 2005**

October 13-14, Château Laurier, Ottawa, Ontario

Here are three important announcements:

**First** — on behalf of the Canadian Brownfields Network (CBN), it is our great pleasure to inform you that the sixth annual **Canadian Brownfields 2005** will be held at the Château Laurier in Ottawa, **October 13-14**. This year's event will focus on the key drivers that are making brownfields redevelopment an increasingly important part of city building and smart growth across Canada. Themes will include political and technological innovation, municipal & private sector partnerships and international experience to revitalize communities and restore urban cores. The event will also include the annual general meeting of the CBN and the CUI Brownie Awards.

**Second** — this is a **call for papers** for the Canadian Brownfields 2005 conference. If you have an interesting case study, technology, application or opinion related to brownfield redevelopment and urban renewal then we want to hear from you. The 2005 CBN conference committee is reaching out to professionals in every region and from all sectors of the brownfields industry to create a practical, powerful and informative program. Submissions should be emailed **by April 29, 2005** and limited to 250 words with emphasis on how the presentation advances our understanding of brownfield redevelopment practice.

**Third** — now in the fifth year, the **CUI Brownie Awards** are well established as the industry standard for recognizing excellence in brownfields redevelopment. Last year we received a record number of quality submissions for the nine award categories and expect this year's nominations to be equally strong. We encourage you to nominate any project, person or organization that you think should be recognized for their achievements in brownfields. See more information on award categories, criteria and nomination forms [Click here](#).

### **Mark your calendars – October 13 & 14 in Ottawa!**

Further program details, registration info and exhibit/sponsorship opportunities will be sent to you in the coming weeks.

We look forward to your continued support of Canada's only dedicated brownfields event and CBN's made-in-Canada solution to realize the potential of brownfield redevelopment across the country.
