Dear Mr. Reycraft and Colleagues:

Thank you for your joint submission in favour of the legislative changes outlined in our government's brownfield reform package. I am grateful for the time you have taken to outline stakeholder support of the recommendations and revisions proposed to date.

I want to underscore how important it is for me to hear from organizations such as yours. Our government remains steadfast in its plan for positive change. The people of Ontario have told us what their priorities are, and we know that we face some significant challenges in implementing them. We will continue to rely on the experience and dedication of organizations such as yours as we find creative solutions to build a stronger Ontario.

Thank you again for writing. We look forward to working together with you through the process of defining the specific legislative changes and related regulatory details.

Please accept my best wishes.

Yours truly,

A handwritten signature in black ink that reads 'Dalton McGuinty'.

Dalton McGuinty  
Premier
